

§ 549.13

§ 549.13 Programming, duty, and housing restrictions.

(a) The CD will assess any inmate with an infectious disease for appropriateness for programming, duty, and housing. Inmates with infectious diseases that are transmitted through casual contact will be prohibited from work assignments in any area, until fully evaluated by a health care provider.

(b) Inmates may be limited in programming, duty, and housing when their infectious disease is transmitted through casual contact. The Warden, in consultation with the CD, may exclude inmates, on a case-by-case basis, from work assignments based upon the security and good order of the institution.

(c) If an inmate tests positive for an infectious disease, that test alone does not constitute sole grounds for disciplinary action. Disciplinary action may be considered when coupled with a secondary action that could lead to transmission of an infectious agent. Inmates testing positive for infectious disease are subject to the same disciplinary policy that applies to all inmates (*see* 28 CFR part 541, subpart B). Except as provided for in our disciplinary policy, no special or separate housing units may be established for HIV-positive inmates.

§ 549.14 Confidentiality of information.

Any disclosure of test results or medical information is made in accordance with:

(a) The Privacy Act of 1974, under which the Bureau publishes routine uses of such information in the Department of Justice Privacy Act System of Records Notice entitled "Inmate Physical and Mental Health Record System, JUSTICE/BOP-007"; and

(b) The Correction Officers Health and Safety Act of 1998 (codified at 18 U.S.C. 4014), which provides that test results must be communicated to a person requesting the test, the person tested, and, if the results of the test indicate the presence of HIV, to correctional facility personnel consistent with Bureau policy.

28 CFR Ch. V (7-1-16 Edition)

§ 549.15 Infectious disease training and preventive measures.

(a) The HSA will ensure that a qualified health care professional provides training, incorporating a question-and-answer session, about infectious diseases to all newly committed inmates, during Admission and Orientation.

(b) Inmates in work assignments which staff determine to present the potential for occupational exposure to blood or infectious body fluids will receive annual training on prevention of work-related exposures and will be offered vaccination for Hepatitis B.

Subpart B—Over-The-Counter (OTC) Medications

SOURCE: 68 FR 47849, Aug. 12, 2003, unless otherwise noted.

§ 549.30 Purpose and scope.

This subpart establishes procedures governing inmate access to Over-The-Counter (OTC) medications for all inmates except those in inpatient status at Federal Medical Centers. Inmates may buy OTC medications which are available at the commissary. Inmates may also obtain OTC medications at sick call if the inmate does not already have the OTC medication and:

(a) Health services staff determine that the inmate has an immediate medical need which must be addressed before his or her regularly scheduled commissary visit; or

(b) The inmate is without funds.

§ 549.31 Inmates without funds.

(a) The Warden must establish procedures to provide up to two OTC medications per week for an inmate without funds. An inmate without funds is an inmate who has not had a trust fund account balance of \$6.00 for the past 30 days.

(b) An inmate without funds may obtain additional OTC medications at sick call if health services staff determine that he/she has an immediate medical need which must be addressed before the inmate may again apply for OTC medications under this section.

(c) To prevent abuses of this section (*e.g.*, inmate shows a pattern of depleting his or her commissary funds before
